A Journey of Compassion and Service

Transforming Personal Loss into a Lifelong Mission of Hope

Some organizations are established to implement projects. Others are born from a deep commitment to humanity. Sudheekshan Foundation belongs to the latter.

Established in **2006**, Sudheekshan Foundation was founded by **Mrs. Chigurupati Vimala** in loving memory of her son **Sudheekshan**, following a tragic road accident that changed her life forever. Rather than allowing grief to define her future, she transformed it into a mission of restoring hope, dignity, and opportunity for thousands of vulnerable people.

For nearly two decades, the Foundation has worked tirelessly to ensure that poverty is never a barrier to healthcare or rehabilitation. Through free eye screening camps, cataract surgeries, artificial limb distribution, rehabilitation support, and women's skill development programmes, the organization has touched countless lives across Andhra Pradesh.

Remarkably, this journey has been sustained primarily through personal commitment, volunteers, well-wishers, doctors, and individual philanthropists, without depending on large institutional funding.

Today, Sudheekshan Foundation stands as a trusted humanitarian organization dedicated to restoring vision, mobility, confidence, and dignity to those who need it most.

Vision

To build an inclusive society where every individual has access to quality healthcare, rehabilitation, and opportunities for dignified living.

Mission

- Decrease road accidents and increase awareness among youth on road safety.
- Restore vision through accessible eye care.
- Restore mobility through rehabilitation and artificial limb support.
- Empower vulnerable women through livelihood initiatives.
- Improve community health through preventive and curative services.
- Promote livelihood opportunities among unemployed youth of different trades especially upgrading the skills and access them to avail the various welfare schemes to sustain as their own.

Our Core Programmes

Road Safety Awareness & Life Protection Initiative is prime focus area of the organization:

Saving Lives Through Awareness

Sudheekshan Foundation believes that the greatest tribute to every life lost in a road accident is preventing another tragedy. Inspired by the personal loss that led to the Foundation's establishment, the organization conducts road safety awareness programmes among school students, college youth, drivers, transport workers, and community members. Through education, responsible driving campaigns, helmet awareness, seat belt promotion, and community engagement, the Foundation strives to reduce preventable road accidents and protect precious lives.

Our objective is simple: *No mother should have to endure the pain of losing a child to a preventable road accident.*

Eye Care Programme

Preventable blindness continues to affect thousands of economically disadvantaged people. Sudheekshan Foundation organizes regular eye screening camps, identifies vision-related problems, refers patients for specialist treatment, and facilitates free or subsidized cataract surgeries.

Services include:

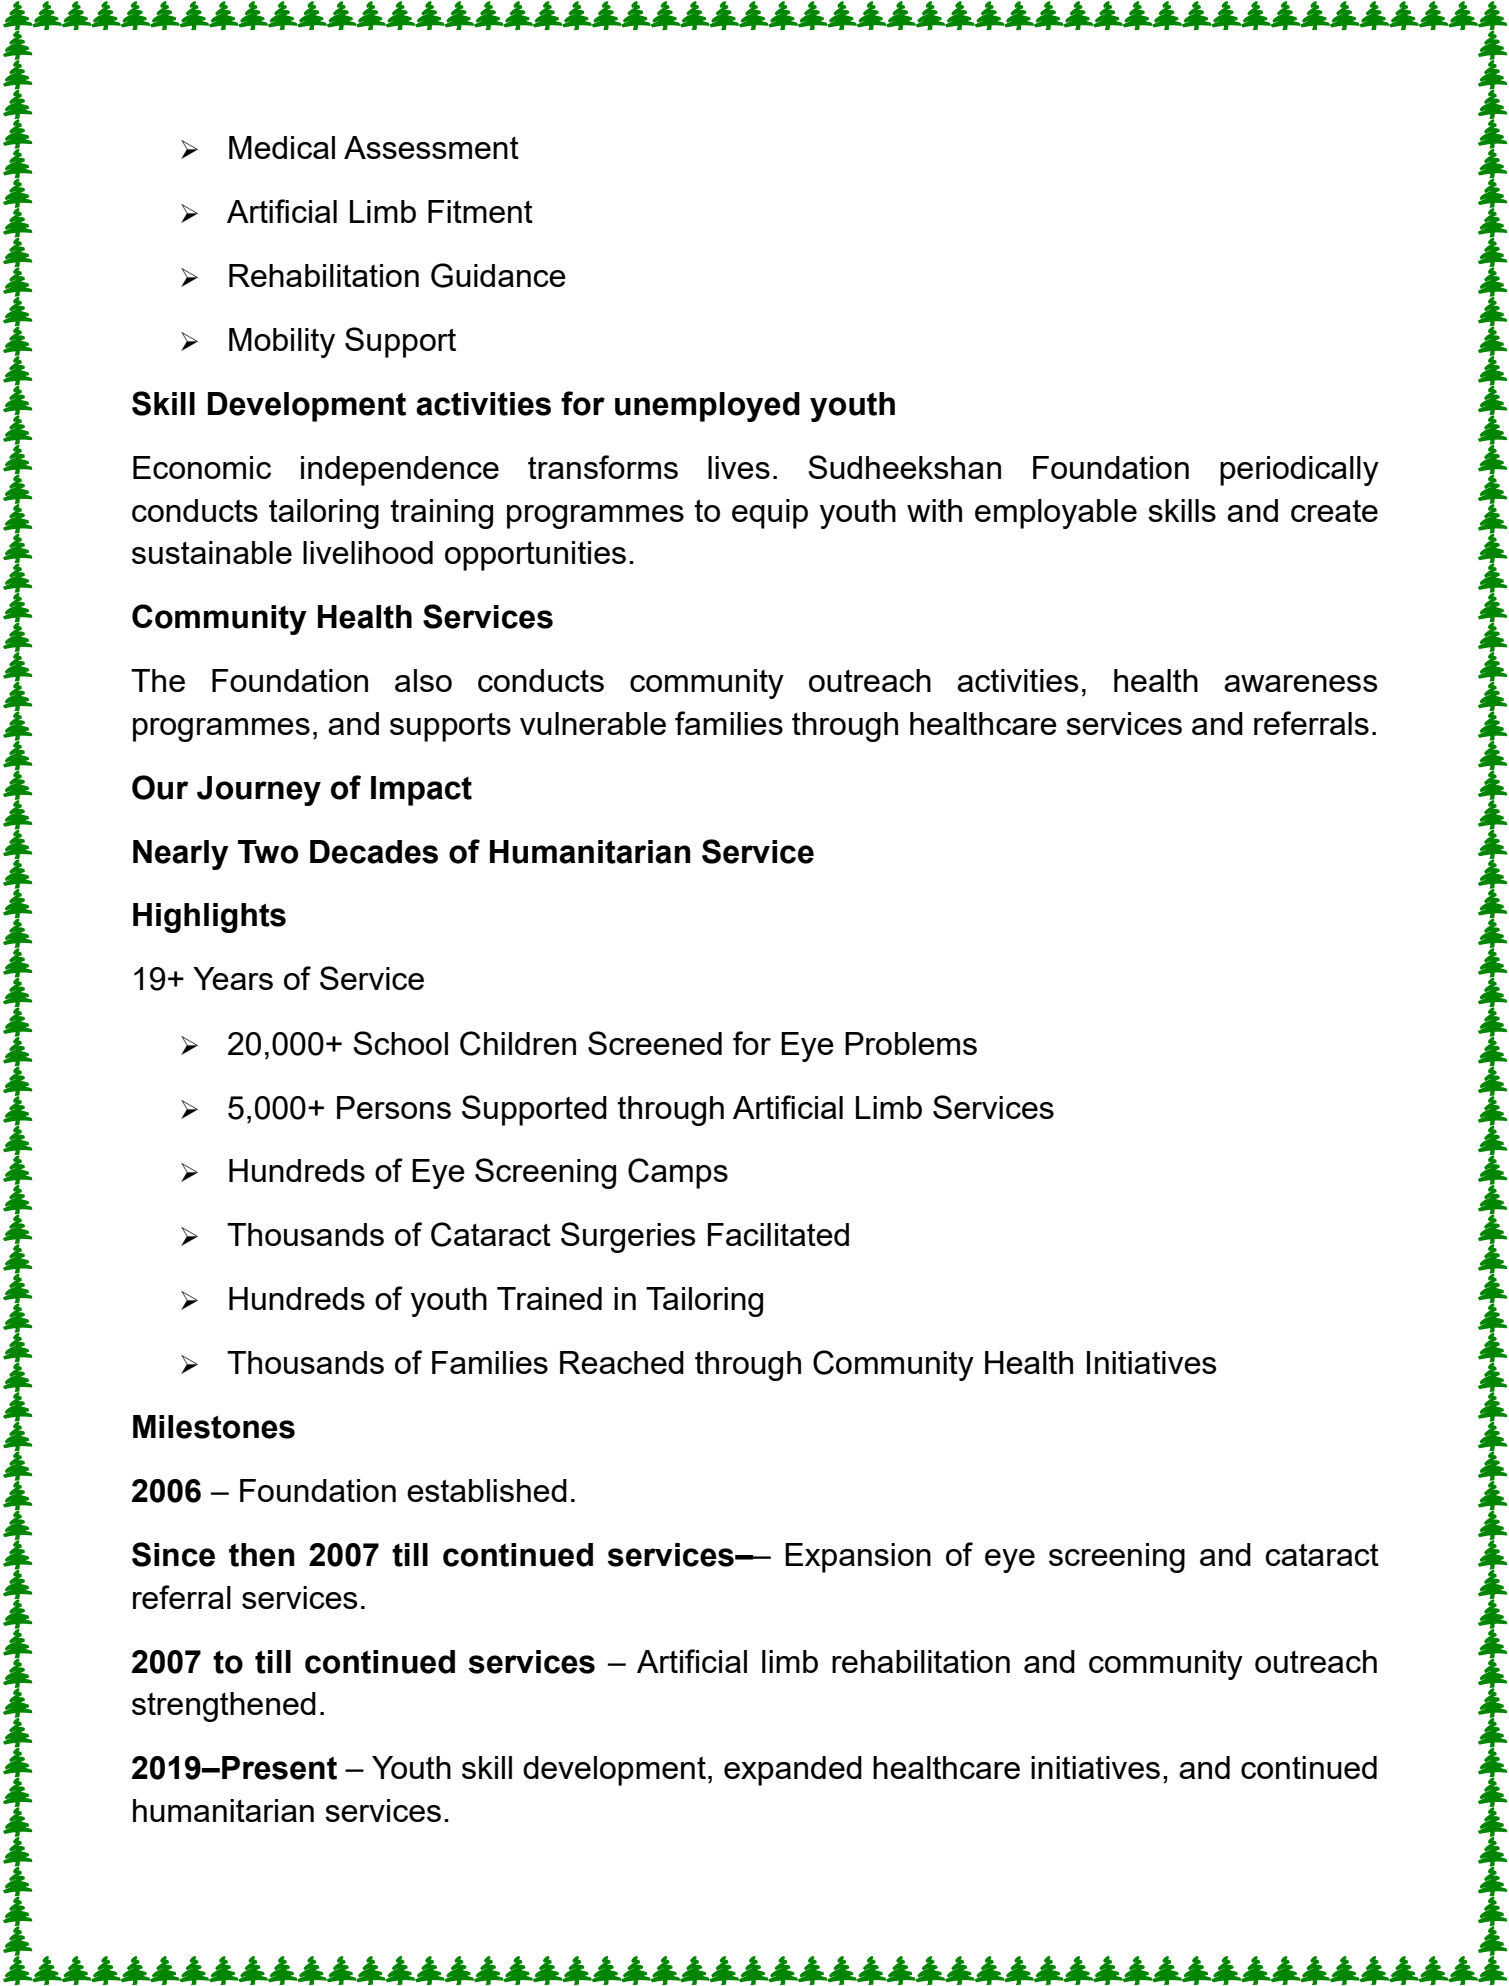

- Eye Screening Camps
- Vision Testing
- Cataract Identification
- Referral Services
- Spectacle Distribution
- Post-operative Follow-up

Artificial Limb Rehabilitation Programme

The Foundation supports persons who have lost limbs due to road accidents, illness, or other causes by helping them regain mobility and independence.

Services include:

- Beneficiary Identification

- 
- Medical Assessment
 - Artificial Limb Fitment
 - Rehabilitation Guidance
 - Mobility Support

Skill Development activities for unemployed youth

Economic independence transforms lives. Sudheekshan Foundation periodically conducts tailoring training programmes to equip youth with employable skills and create sustainable livelihood opportunities.

Community Health Services

The Foundation also conducts community outreach activities, health awareness programmes, and supports vulnerable families through healthcare services and referrals.

Lives Transformed

Restoring Vision

An elderly woman suffering from cataracts regained her eyesight through timely surgery facilitated by Sudheekshan Foundation, allowing her to resume daily life independently.

Restoring Mobility

A road accident survivor who lost a limb received an artificial limb and rehabilitation support, enabling him to return to work and support his family with dignity.

Restoring Livelihood

A woman who completed tailoring training established a home-based tailoring unit, creating a sustainable source of income for her family.

Tetimonial of a beneficiary: Artificial Limb Program

"After my accident, I believed I had lost not only my leg but also my future. Sudheekshan Foundation gave me more than an artificial limb—they restored my confidence, my independence, and my hope. Today, I am back at work and able to support my family with dignity. I will always remain grateful for the compassion and care extended to me."

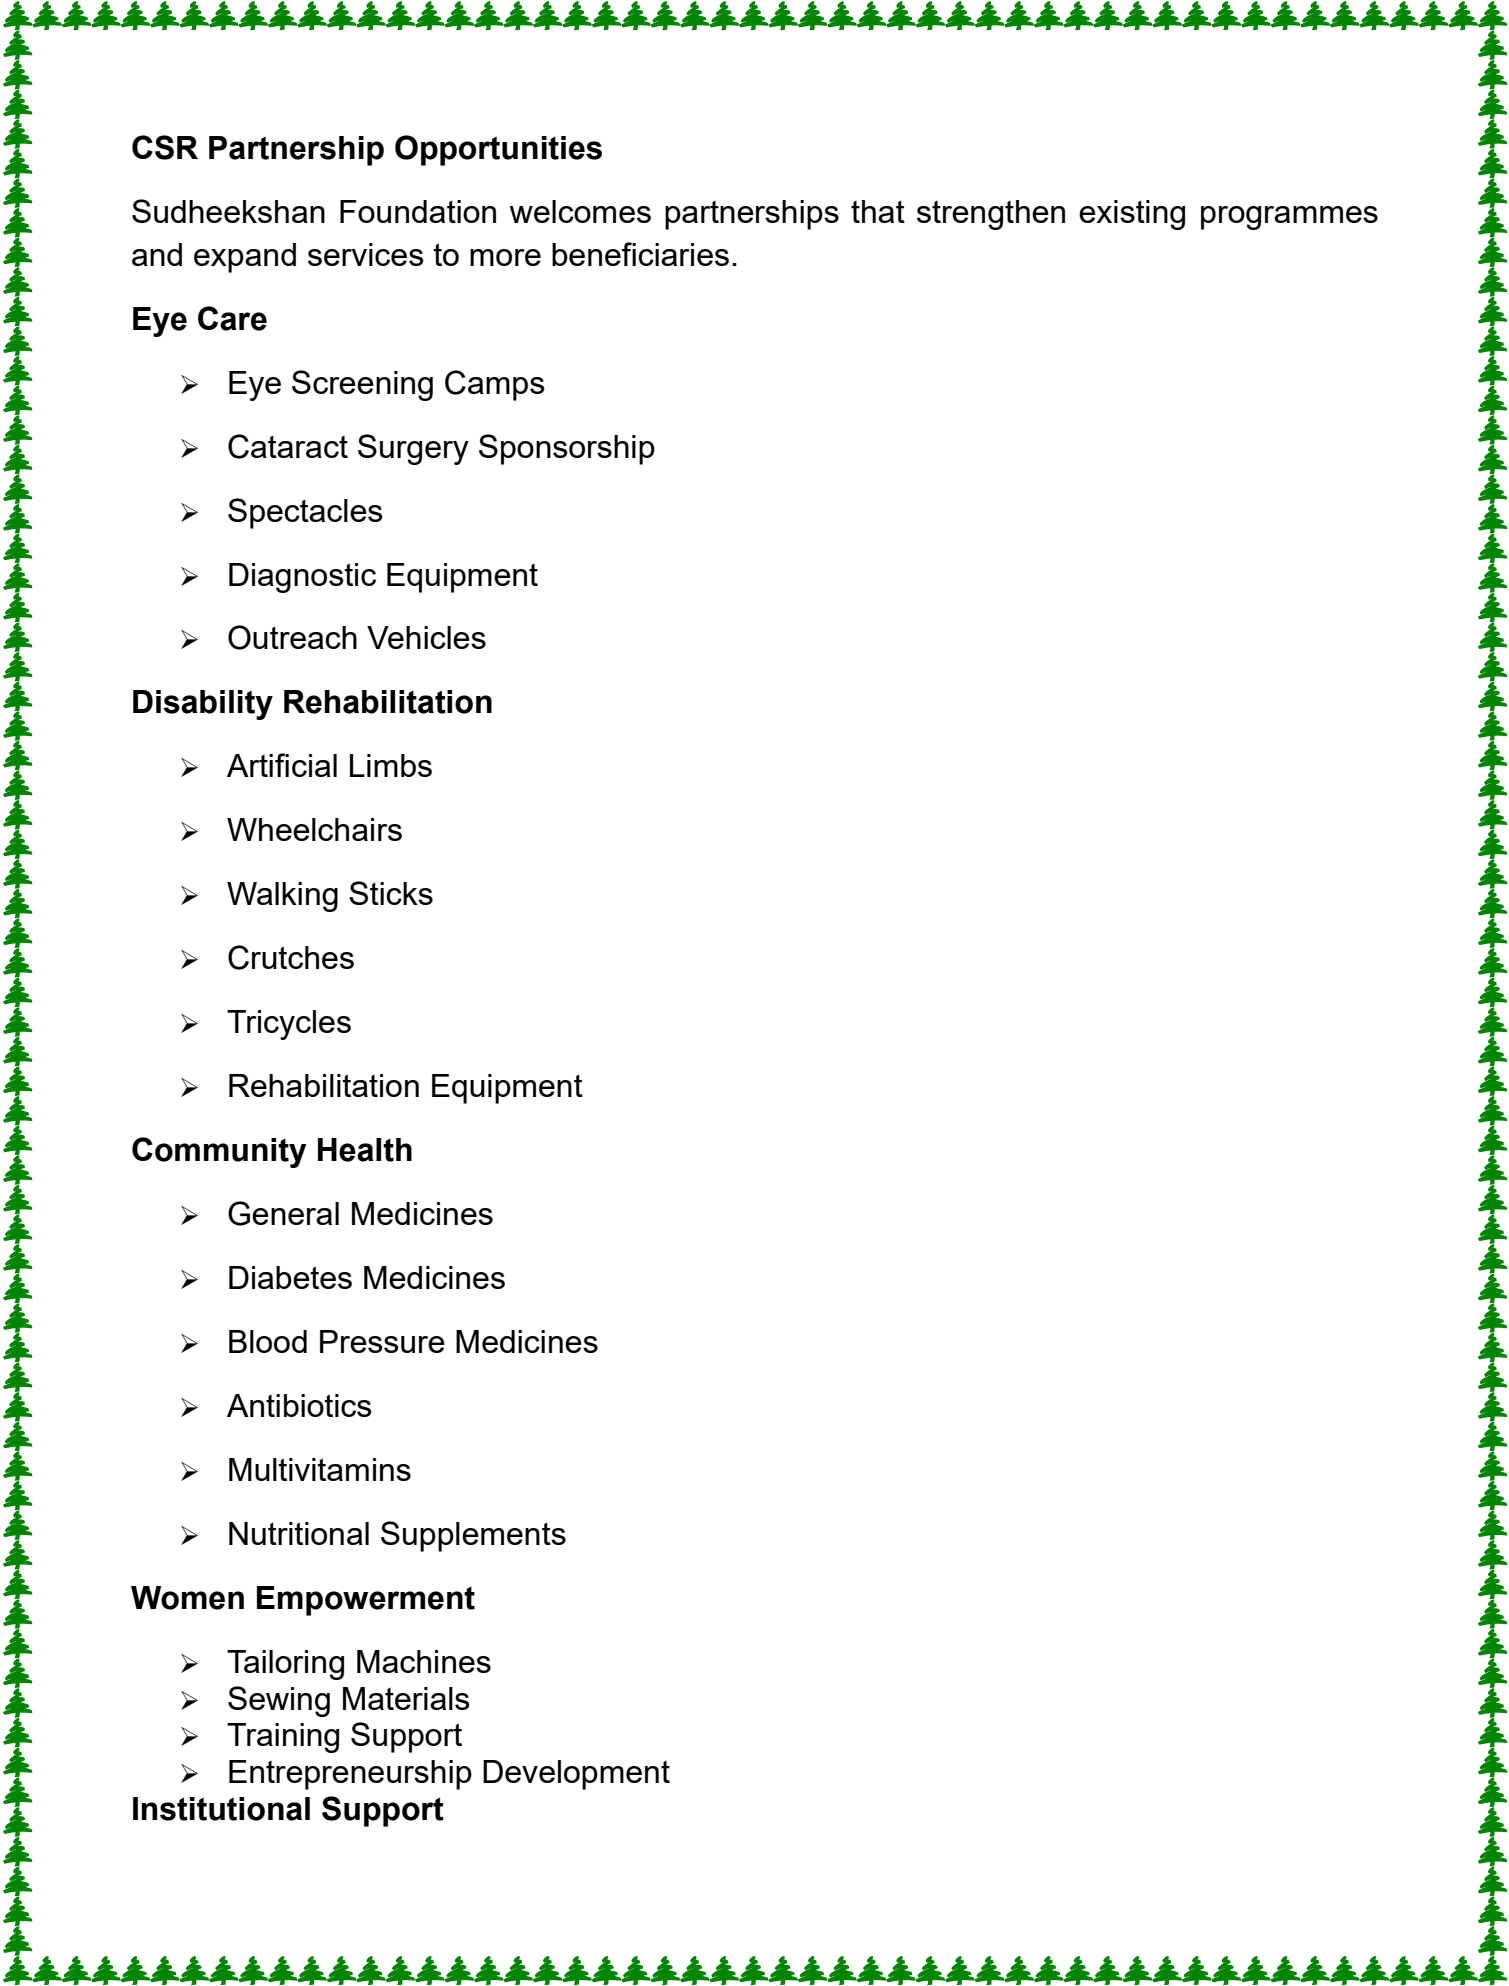

– Srinivas, Payakapuram, Vijayawada.

Together, We Can Transform More Lives

For nearly two decades, Sudheekshan Foundation has quietly demonstrated that compassion can change lives.

Every restored vision...

Every confident step...

Every empowered woman...

Every smile brought back through service...

...is a reminder that humanity grows stronger when communities come together.

We invite corporate partners, CSR foundations, hospitals, charitable trusts, medical institutions, philanthropists, and individual donors to join us in expanding this mission of hope and dignity.

Let us work together to ensure that no one is denied healthcare, rehabilitation, or the opportunity to live with dignity because of poverty.

Son's death in mishap turns her into crusader of road safety

NOOR SHAIK

Vijayawada: If the United States and Canada have 'MADD' centres to ensure safe driving and road use, our own 'Sudheekshan Foundation' here is no less in creating awareness among youth with a missionary zeal to minimize, if not eliminate, deaths due to road accidents.

Mothers Against Drunk Driving (MADD) is a non-profit organization that seeks to stop drunk driving, support those affected by drunk driving, prevent underage drinking, and strive for stricter impaired driving policy. The Irving, Texas-based organization was founded on September 5, 1980, in California by Candace Lightner after her 13-year-old daughter, Cari, was killed by a drunk driver. Today, there is at least one MADD office in every state of the United States and at least one in each province of Canada.

Not unlike Candace Lightner, Chigurupati Vimala, whose son died in a road accident, realised the dire need to do something concrete to prevent fatal mishaps that could agonizingly tear a woman from her children. Hardly 10 days after the death of her only son, she launched a foundation with a mission to create awareness among youth on traffic rules. The idea is to at least minimize, if not entirely prevent, deaths due to acci-

dents. The foundation has voluntarily funded many persons, including accident victims, in getting artificial limbs.

The insensitivity of most people who ignore an accident victim begging for help hurts her most. For, her son Sudheekshan was going on a bike to reach his engineering college around 8.30 am. A truck hit him and he was seriously injured. Nobody came to his rescue. He was seen urging everybody going that way to take him to a hospital. At last, a police team noticed him and he was rushed to a hospital. He succumbed to injuries six days after admission.

At that point of time, a police complaint was necessary for admitting an

Sudheekshan
accident victim to a hospital. Now, there are no such restrictions, thanks to the directives of the courts. Now, Vimala's daughter, who is in

the US, is also waging a battle against lack of awareness among youth by holding meetings in colleges and selecting the needy who can, with help, walk with either Jaipur leg or prosthetic limbs. So far, she has provided assistance to 500 people who have got their artificial legs and about 100 others who secured artificial hands.

Talking to 'The Hans India', she said that people in the age group of 16-40 years were prone to bike accidents that might cause death. Her Sudheekshan Foundation has membership in the Global Alliance of NGOs for Road Safety, located in Zurich, Switzerland. The foundation is also a member of the Indian Alliance of NGOs for Road Safety, Delhi. Every year, 1.45 lakh deaths are reported in Andhra Pradesh, about 350 deaths occur in the city of Vijayawada, she said.

Recently, she conducted a camp in the city and provided Jaipur limbs to the needy at a cost of Rs 2 lakh and prosthetic limbs to six children at a cost of Rs 5 lakh.

She has contacts with more than 100 NRIs who help her in carrying out her mission. She has extended activities to neighbouring West Godavari, Guntur and Prakasam districts. She is now planning another camp in February.

చెట్లంత కొడుకు కానరాని లోకాలకు వెళితే ఆ కన్నపేగు ఎంత తల్లిదండ్రులకు? పంచప్రాణాలు అనుకున్నవాడే కనుమరుగయ్యాడంటే ఆ గడ్డుకోణాన్ని ఆపడం ఎవరితరం? దురదృష్టవశాత్తు లదే జరిగినా కుమరిపోతూ కూర్చోలేదు ఆ కన్నతల్లి. పుట్టేదు బాధని దిగమింగుతూనే.. తనలాంటి కడుపు కోత మరెవరికీ కలగొద్దని చేతల్లోకి దిగారు. కొడుకు పేరుతో స్వచ్ఛంద సంస్థ ప్రారంభించి, రోడ్డు ప్రమాదాల నివారణకు శ్రమిస్తున్నారు. ఈ సేవల కోసం తన జీవితాన్ని, యావదాస్తిని కరిగిస్తున్న చిరుపాటి వెంకటేశ్వర వసుంధర మాట కలిపింది.
